

**Project FOCUS  
Best Lessons  
KINDERGARTEN**

**Title of Lesson:** Q-tip Skeletons

**Theme:** Life Science

**Unit Number:** 6      **Unit Title:** Plants and Animals

**Performance Standard(s) Covered (enter codes):**

SKL2

SKCS4

SKCS1

**Enduring Standards (objectives of activity):**

**Habits of Mind**

- Asks questions
- Uses numbers to quantify
- Works in a group
- Uses tools to measure and view
- Looks at how parts of things are needed
- Describes and compares using physical attributes
- Observes using senses
- Draws and describes observations

**Content (key terms and topics covered):**

Human body, health

**Learning Activity (Description in Steps)**

**Abstract (limit 100 characters):** This activity teaches the kids about different parts of the body.

**Details:** We read a book about the human body and talked about the different parts we had read about. The importance of bones is to hold our bodies together and was emphasized while constructing the skeletons. 14 Q-tips were placed in a plastic bag along with a circle for the head. The kids were given a piece of construction paper and were supposed to make a skeleton like the one displayed on the board.

**Materials Needed (Type and Quantity):**

Zip-loc baggies

Q-tips

Construction paper

Glue

White paper cut into circles

Book about the human body

**Notes and Tips (suggested changes, alternative methods, cautions):**
